

Memo No: 1340/s
19/08/2021

Date: 19/08/2021

From: The Deputy Director of School Education (AIS)
&
State Nodal Officer of NMMSE, West Bengal
To: The District Inspector of Schools (S.E.), all

Sub: Regarding National Means-Cum-Merit Scholarship Examination (NMMS)

With reference to the subject mentioned above, this is to inform him/her that like previous years, this year National Scholarship Portal (NSP2) remains functional from 19/8/2021 and will be opened up to 31/12/2021 for fresh registration & renewal as per notification of Ministry of Education, Govt. of India. Selected students of NMMS of 2020 (studying in class IX (fresh), X, XI & XII (renewal) students in 2021 have to submit online application. After successful submission of applications at NSP2, the applications are verified through two tier verification process i.e. Institutional level verification & District Level verification. The Ministry of Education, Govt. of India has issued some necessary instructions for Head of the Institutions as well as for Nodal Teachers who usually verify the applications of students. The instructions are given below:

i) Re-registration of schools & Submission of KYC Form: All schools which are registered at NSP2 have to re-register them using a well defined process which includes mandatorily providing DISE codes. District Nodal Officer will verify credentials of school Nodal Officer and reset his/her password through a well- defined procedure. He /she is requested to take immediate action for re-registration of schools in which NMMS students are qualified. The institutes, not having login credentials are advised to fill the KYC Registration Form and get it approved by District Nodal Officer (DNO). Option to apply for Institute KYC Registration is available under SERVICES section on the portal. All institutions for which KYC is already completed last year need not do the KYC again. They can login in the portal directly and register their Aadhaar. The detailed operational step (copy enclosed) involved in filling the Institute KYC Registration Form is available under "Important Documents" section on the portal.

ii) Updating School profile & verification of fresh registration & renewal application: After getting approval from District Nodal Officer concerned it will be the duty of the school to update the school profile as well as offered courses, course fee including correct bank account details of the Institute. After proper updating, Institute Nodal Officer will be able to verify the fresh application /renewal application. Therefore it is important that all schools which did not register yet complete the process of KYC with Aadhaar numbers of Head of the Institution & Nodal Teacher to enable verification of scholarship application under the schemes concerned.

So, he/she is requested to take necessary arrangements to expedite the process of re-registration of all schools in his/her jurisdiction, so that more students can apply on the NSP for the scholarships as their eligibility.

Enclosure: As stated above
